

Does your roof make the grade?

Asphalt Roofing

Pros: Light weight, many styles and colors, relatively inexpensive, easy to replace individual shingles.

Cons: Shortest lifespan, particularly vulnerable to the elements.

Guaranteed Roofing Grade: **A**

Metal Roofing

Pros: Durable, long-lasting, energy efficient.

Cons: More expensive, possibility for noise during storms.

Guaranteed Roofing Rating: **A**

Clay and Concrete Shingles

Pros: Noncombustible, energy efficient.

Cons: Heavy, expensive.

Guaranteed Roofing Rating: **C**

Slate Roofing

Pros: Long lifespan, durable (usually).

Cons: High cost, heavy weight.

Guaranteed Roofing Rating for Traditional Slate: **B-**

Guaranteed Roofing Rating for Faux (Synthetic) Slate: **A-**

Wood Shingles

Pros: Rustic look.

Cons: Vulnerable to fire, concern in wet climates.

Guaranteed Roofing Rating: **C-**
